

Ginger Stromsted Glauber

July 1, 2011

From Betsy Karch Wilson:

Ginger was in our HP group in North Rocky and roomed with Mary Lynn Caffrey Berry. They lived next door to Judy and me. We (thanks to Judy) cleaned our room every Sunday...took our furniture out and everything!

I'm not sure they ever cleaned theirs!!!! Ginger helped write Jr Show...she was very clever with words. Ginger was an exceedingly creative person and could be really funny...we had a great time with her (and Mary Lynn) as our neighbors. She married Steve Glauber, and they lived in NYC...he was a producer of Sixty Minutes in it's infancy...when Mike Wallace first started it. We visited her when she was still married to him and they did have two children. I lost track of her over the years...heard she had some health problems. I know Mary Lynn would know more about her. I'm really sad to hear of her death.
