

Joyce A. Grinker

November 1, 2003

The College only recently (4/08) obtained news of Joyce's death. No formal obituary has been published. After MHC, Joyce pursued a career in medicine, graduating with an MD degree in 1965 from Albert Einstein College of Medicine. It appears that she was a self-employed physician in New York City for most of her professional life and still lived there at the time of her death.
