

Babbie Baldwin Miller

Being your SCRIBE is fun because I am kept up on all the hot news that is fit to print about our amazing class of MHC 1961 !! I was scribe once before in the dark ages before computers—remember I wrote you little double-sided postcards and asked you to fill in your news. and send the other half back to me?

That was much more labor-intensive than it is now—but I still need classmates to be willing to jot down their news and email it back to me so I can write up a really interesting piece 4 times a year! I don't even have to remind you anymore— the college sends out an email blast and you rush to write me your news—a great system! Then months later, you will read what you wrote in a sparkling and witty column in the AQ.

I enjoy this position as scribe because it keeps me in touch with the college and you and our officers for 5 years at a time—a good way to stay connected and excited about MHC!!
